DISTRICT OF COLUMBIA FEDERAL NUTRITION PROGRAMS TOOLKIT

Developed by: D.C. Hunger Solutions, DC Department of Health, DC Office of the State Superintendent of Education, DC Public Schools, DC Department of Human Services, DC Department of Aging and Community Living

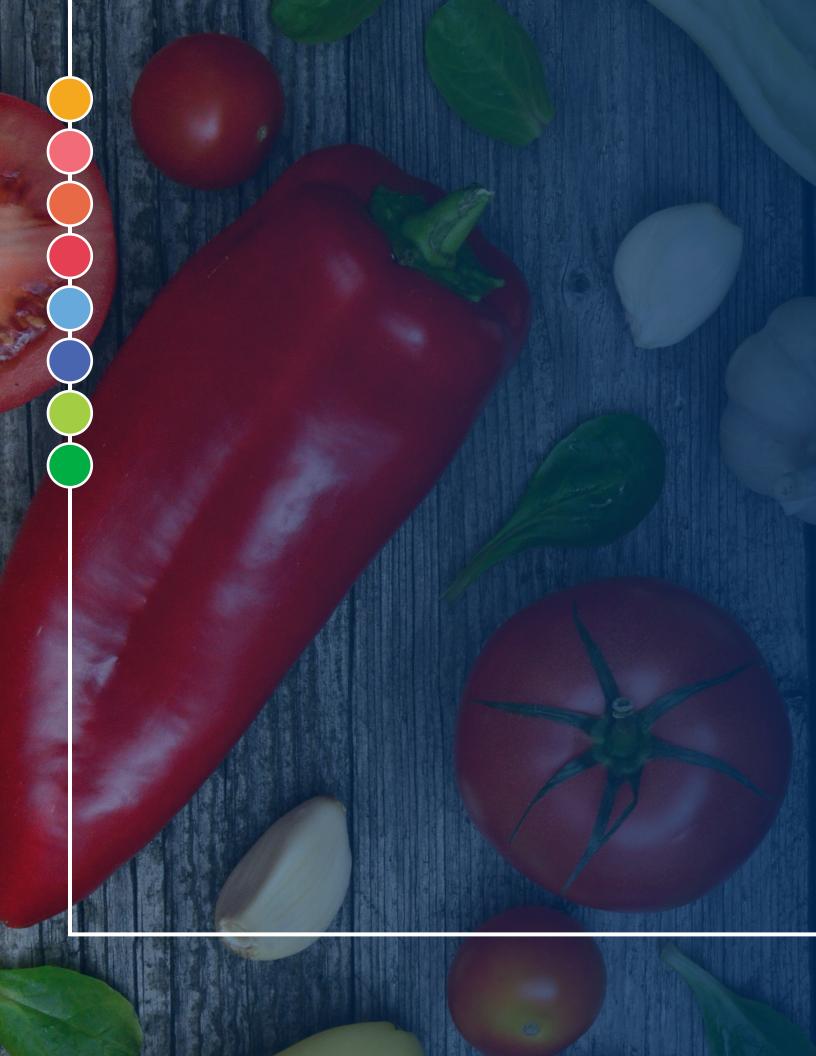

WEARE GOVERNMENT OF THE DISTRICT OF COLUMBIA

INTRODUCTION

Every resident of the District of Columbia has a right to healthy, affordable, culturally appropriate food. This Toolkit was created for residents, community based organizations (CBOs), health care providers, District agencies, and anyone interested in ensuring everyone has access to healthy, affordable food. Agencies, CBOs, and providers can use the Toolkit to refer their participants to federal nutrition programs, and individuals can learn how to apply and where to access benefits, food, and meals.

Access to affordable, nutritious food and meals is central to living a healthy life. The District operates <u>federal nutrition programs</u> which offer a variety of benefits - from money for groceries to balanced meals - for all age groups. Each program is unique and serves a different group of people with different benefit types. This Toolkit was created to help people navigate these programs so that individuals and families receive the support they need for healthy diets and lives.

The <u>federal nutrition programs</u> are administered federally by the US Department of Agriculture and the Administration for Community Living and operated in the District by state agencies including the DC Department of Health, DC Office of the State Superintendent of Education, DC Department of Human Services, and DC Department of Aging and Community Living. These agencies partner with organizations across the District to provide benefits, meals, snacks, and food boxes through the federal nutrition programs.

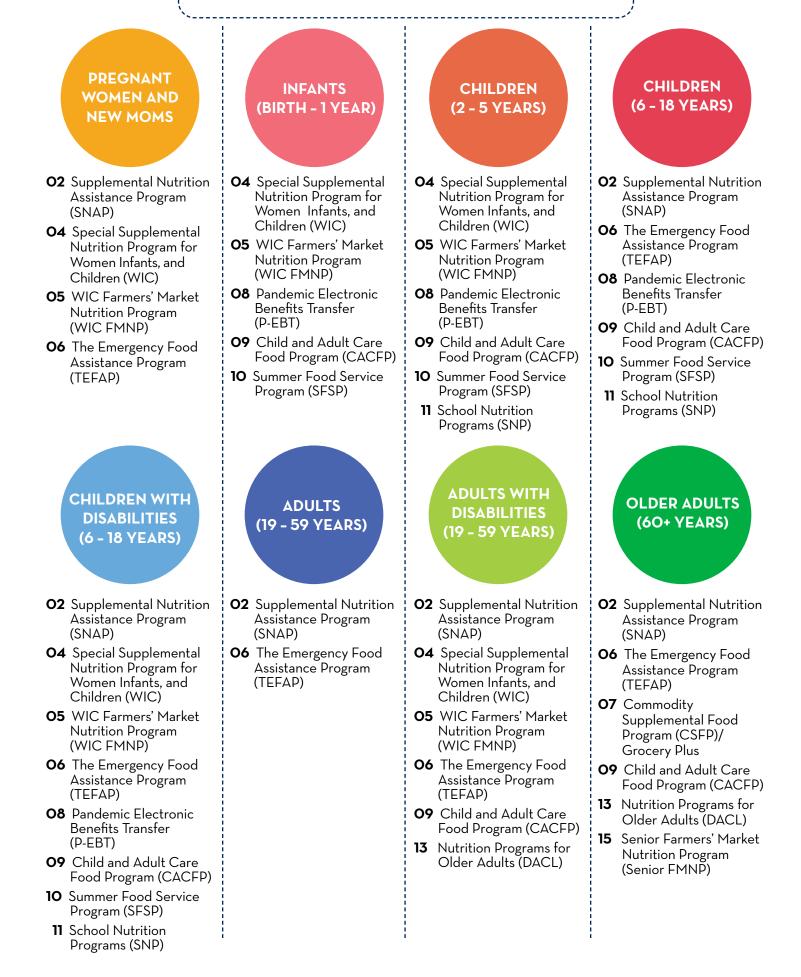

We hope you find this Toolkit useful and effective. Connecting people to federal nutrition programs can help combat food insecurity and ensure residents have the nutrition needed to live a healthy, productive life.

These institutions are equal opportunity providers.

CHILD AND ADULT CARE FOOD PROGRAM (CACFP)

- The CACFP provides approved child development facilities, adult day care centers, sponsored day care homes, afterschool programs, and emergency shelters with monthly reimbursement for the meals and snacks they serve. Meals that are reimbursed must meet federal guidelines.
- Participating organizations receive training and technical assistance, nutrition education, and food safety information.
- Facilities must be eligible and receive approval to operate the CACFP before applying for any reimbursement.

WHO IS ELIGIBLE FOR CACFP?

Individuals:

- Infants and children receive no-cost or low-cost meals through their child development facility or day care home.
- All youth who are age 18 and younger at the start of the school year and any person with a disability can get meals through participating afterschool programs.
- Anyone younger than 25 years old or who has a disability can get meals at emergency shelters they live in.
- Adults who are age 60 and older or those age 18 and older with a disability can receive no-cost or low-cost meals at the adult day center where they also receive social and health services.

Center/Home Eligibility

• In order to receive reimbursement for meals served to these age groups, your center/home/school must be approved to participate in the CACFP.

Several types of facilities are eligible for this program, including:

- Licensed child care centers, before- and aftercare centers, and day care homes.
- Afterschool programs with structured activities (not competitive sports).
- Emergency shelters.
- Licensed adult day care centers.

HOW TO APPLY

Individuals:

 Youth or those with disabilities at participating afterschool programs or are living in participating emergency shelters can receive meals automatically. • Families with infants and children enrolled in child care centers or family day care homes, as well as adults enrolled in adult day centers, are asked to fill out a confidential form with household income information. This form is provided by the facility/home and helps facilities determine how much reimbursement the facility will receive for meals they serve.

Center/Home:

- Day care home providers apply to the CACFP under a sponsoring organization.
- Child care centers can choose to complete an application to the CACFP independently or under a sponsoring organization through OSSE's webbased system, Orchard.
- All organizations and providers interested in participating in the CACFP can view their options here: <u>osse.dc.gov/publication/cacfp-app-process</u>.
- Applications can be completed year-round. Your facility will be assigned a program specialist to support program operations.

SUMMER FOOD SERVICE PROGRAM (SFSP) - LOCALLY KNOWN AS DC YOUTH MEALS PROGRAM

WHAT IS THE SFSP?

- The SFSP, is a federally funded, state-administered program. SFSP reimburses program operators who serve no-cost healthy meals and snacks to youth age 18 and younger in low-income areas during summer months.
- The SFSP also operates in the event of an unanticipated school closure, extreme weather event, natural disaster, or any other event that may cause schools to be closed more than two weeks.

WHO IS ELIGIBLE FOR SFSP?

- All youths age 18 and younger can receive no-cost meals at participating meal sites in the community.
- Individuals with disabilities who are older than age 18 and participate in school programs for the mentally or physically disabled can also receive meals at these sites.
- No cost, no sign-up, no registration, and no ID required.

HOW TO APPLY

Families/Youth:

- There is no ID or application required to participate in SFSP.
- All youths in DC age 18 and younger can receive service by visiting any participating open meal site located in the District.

Sites:

- Sites may apply on their own or under a sponsoring organization.
- Site application approval in the SFSP is required.
- Sites that are interested in being part of the SFSP under an approved summer sponsor can contact <u>Shaneka.King1@dc.gov</u> for the list of participating sponsors.

Sponsors:

- The state agency approves sponsor applications, conducts training of sponsors, monitors SFSP operations, and processes program payments. Sponsors sign agreements with their state agencies to run the program.
- Applications through OSSE's web-based system, Orchard, are available each year on Feb. 1.
 Sponsor applications cannot be accepted after June 15.
- If you are interested in applying for your own site and/or other meal sites, contact <u>Shaneka</u>. <u>King1@dc.gov</u> to discuss the application process.

SCHOOL NUTRITION PROGRAMS (SNP)

WHAT ARE SNPs?

The SNPs include the School Breakfast Program (SBP), National School Lunch Program (NSLP), Afterschool Snack Program (ASP), Seamless Summer Option (SSO), Fresh Fruit & Vegetable Program (FFVP), and Special Milk Program (SMP). These programs provide nutritious low- or no-cost meals and snacks to students in the District.

- SBP: The SBP provides reimbursement to states to operate nonprofit breakfast programs in schools and residential childcare institutions. OSSE administers the SBP at the state level, and local school food authorities (SFAs) operate the program in schools.
- NSLP: NSLP is a federally assisted meal program operating in public, public charter, and nonprofit private schools and residential child care institutions. It provides nutritionally balanced, low-cost or free lunches to children each school day.
- ASP: The afterschool snack component of the NSLP is a federally assisted snack service that fills the afternoon hunger gap for school children. At the state level, it is administered by OSSE, which operates the snack service through agreements with local SFAs. SFAs are ultimately responsible for the administration of the snack service.
- SSO: SSO makes it easier for schools operating either the SBP or NSLP to feed children during the traditional summer vacation periods and, for year-round schools, long school vacation periods. The schools serve free meals to youth age 18 and younger under the school meal program rules. Meals are reimbursed at the free rates for school lunches, school breakfasts, and afterschool snacks.
- **FFVP:** FFVP is an important tool in our efforts to combat childhood obesity. The program has been successful in introducing school children to a variety of produce that they otherwise might not have the opportunity to sample.
- SMP: The SMP provides milk to children in schools and child care institutions who do not participate in other federal meal service programs. The program reimburses schools and institutions for the milk they serve.

WHO IS ELIGIBLE FOR SNP?

Residents:

• Students enrolled in participating schools and residential child care institutions (RCCIs).

Organizations:

• DCPS, public charter schools, private schools, and RCCIs.

HOW TO APPLY

Residents:

 Students attending a Community Eligibility Provision (CEP)school do not have to apply. Meals served at CEP schools are provided at no-cost to students.

- Students attending a school that offers free, reduced-price, and paid meals will need to complete a Free And Reduced-price Meal (FARM) application. This form is confidential. Families can see if their student will receive free or reduced-priced meals using the USDA annual <u>Income Eligibility Guidelines</u>.
 - There is no cost for breakfast at schools that participate in the SBP.

Organizations:

- Eligible schools and RCCIs can apply as an SFA for the NSLP (including the SBP, ASSP, and SSO) or SMP through OSSE's web-based system, Orchard.
- SFAs must apply to participate on an annual basis and are required to meet certain nutrition, meal, and administrative requirements. Applications must

be submitted in <u>Orchard</u> by Aug. 31 annually. SFAs will be assigned a <u>program specialist</u> to support program operations.

- CEP schools: Schools that elect to adopt the CEP must not collect FARM applications from families and must provide breakfast and lunch meals to all students free of charge.
- Schools that adopt the CEP are reimbursed using a formula based on the percentage of students categorically eligible for free meals based on their participation in federal nutrition programs such as SNAP or TANF.
- Pricing schools: Schools that do not qualify for or choose to elect the CEP should collect FARM applications from families and charge families at a free, reduced-priced or paid rate dependent on their household income or participation in other federal nutrition programs such as SNAP or TANF. Each SFA sets their school's paid lunch price as part of the application process. School breakfast is free for all DC students enrolled in schools participating in the SBP.
- Pricing schools are reimbursed per meal served at annual rates set by the US Department of Agriculture.

SFAs are eligible to apply to the FFVP if they serve elementary school students, operate the NSLP and are in good standing, and have 50 percent or more of students eligible for free or reduced-priced meals. A separate Orchard application is required for the FFVP.

CONTACT INFORMATION

- Email: <u>OSSE.NutritionProgram@dc.gov</u> (please specify School Nutrition Programs in the subject line)
- Website: osse.dc.gov/service/nutrition-services
- Phone: (202) 727-6436 (families: please contact the schools directly first before using general phone line)

O LOCATIONS OF SERVICE SITES

- DCPS and DC Public Charter Schools participate in the school meal programs. Private schools and RCCIs can participate as well.
- Families are encouraged to reach out to their child's school to learn more about their school's participation in federal school nutrition programs.
- Schools may contact OSSE to see if they are eligible.

DEPARTMENT OF AGING AND COMMUNITY LIVING (DACL) NUTRITION PROGRAMS

WHAT IS THE DEPARTMENT OF AGING AND COMMUNITY LIVING (DACL) AND LEAD AGENCIES?

DACL provides leadership for programs for older adults funded by the Older Americans Act to improve health, address hunger, and support independence and cognitive functioning. These services are provided directly through six Lead Agencies, which are neighborhood-based resource centers that administer programming and services to older adults and are located across the District.

WHAT ARE NUTRITION PROGRAMS FOR OLDER ADULTS?

In order to thrive, you need food that tastes good and is good for you. Nutrition programs for older adults are designed for adults age 60 and older and adults with disabilities. Services offered include community dining (currently closed due to COVID-19), home-delivered meals, nutrition screening, nutrition counseling, nutrition supplements and nutrition education.

WHO IS ELIGIBLE FOR NUTRITION PROGRAMS FOR OLDER ADULTS (DACL)?

- Home-Delivered Meals: Adults 60 and older, the spouses of homebound adults, or disabled persons who reside with these homebound adults may be eligible to receive home-delivered meals. You must first be screened by the Department of Aging and Community Living (DACL).
- Community Dining: Any Adult 60 and older, the spouses of homebound adults, or disabled persons who reside with older adults are welcome. These meals are nutritious and are served in community settings such as senior centers, senior housing, or churches (Note: currently, community dining is closed due to the Public Health Emergency).
- Nutrition Supplements: Adults 60 and older with a physician's prescription or dietitian assessment that determines unintentional weight loss, frailty, underweight or a condition that interferes with nutritional intake may all qualify for medically therapeutic liquid nutrition supplements including Ensure Plus, Boost Glucose Control, and Nepro.

- Nutrition Counseling: Nutrition Counseling is an important part of the prevention and treatment of many diseases and conditions. A Lead Agency Registered Dietitian Nutritionist or Licensed Nutritionist can offer support for improving your nutritional status based on your needs. This one-on-one dietary guidance is tailored to each individual and involves an evaluation of nutritional history, current dietary intake, medication use, or chronic illnesses.
- Nutrition Education: Nutrition Education
 programs are designed to promote better
 health and well-being by providing accurate
 and culturally sensitive nutrition, physical
 fitness, or health information and instruction
 to participants and caregivers in a group or
 individual setting, supervised by a Lead Agency
 Registered Dietitian or Licensed Nutritionist.
